1. All bids are per lot as numbered in the catalogue. The right is reserved to withdraw any lot prior to sale, or to group two or more lots.

2. The highest bidder will prevail. Lots are sold at a slight advance over the next highest bid. The auctioneer will regulate the bidding, and reserves the right to refuse any bid not believed to be in good faith. Should any dispute arise between bidders, the decision of the auctioneer, in the exercise of his judgement as to the successful bidder, will be final, and the auctioneer may re-offer or resell the lot under dispute. Title will be retained by Harmer, Rooke Numismatists, Ltd., until lots are paid for in full.

3. Auction sales are strictly for cash, and must be paid for promptly in U. S. funds.

4. Floor bidders must identify themselves to the auctioneer immediately following the purchase of each lot. Payment of the whole purchase price, or such part as the auctioneer may require, will be made by the buyer in such manner as the auctioneer may determine. Personal checks may be accepted, subject to collection.

5. Mail bidders unknown to us must furnish satisfactory references, or remit a deposit of 25% of the total of bids. There is no charge for executing mail bids. In the case of equal bids, the earlier bidder will prevail. Successful mail bidders will be notified of the lots allocated to them, and must forward payment before the lots are sent. Those known to us, or who furnish satisfactory references, may, at our option, have their purchases forwarded for immediate payment. Delivery of lots will be to addresses indicated on bid sheets.

6. All lots are guaranteed to be genuine, and as described. Any claim to the contrary must be made, in writing, within 10 days after receipt of the lot.

7. Forwarding charges, insurance, &/or registry fees will be borne by the purchaser. The N. Y. State Sales Tax as applicable, is payable by all buyers liable to tax.

8. Unlimited or "buy" bids cannot be accepted. Our estimate of the values of a reasonable number of lots will be supplied upon receipt of a self-addressed stamped envelope. Or call (212) 765-3883.

The HARMER, ROOKE Newsletter:

COVERS THE WORLD OF RARE STAMPS AND COINS

A FORMER COIN APPRAISER with 24 years' experience in the numismatic field and a well-honed interest in detecting spurious pieces recently joined the staff of Harmer, Rooke Numismatists, Ltd. He is Joseph H. Rose, who attended four colleges including the University of Hawaii, and now serves as special assistant to Wm. Thomas Anton, Jr., HRN.

Joseph H. Rose

Joe likes to write. He has done several articles on counterfeiting for Coin World. During his years in the Air Force (1943-45), he was reporting and writing editorials for "Stars and Stripes" when not giving psychological tests at the Central Pacific Base Command.

After Joe got his discharge, he became a Foreign Currency Trader for William Holzman & Co. of New York, and renewed his interest in coins when they called on him to evaluate estates. He worked nights and weekends with the late expert Robert Friedberg, to learn the hobby-business of numismatics more thoroughly. Eventually he set up and ran Holzman's numismatic section.

In 1964 Joe moved to Manfra, Tordella and Brookes and managed their rare coin department for five years.

Joe was born in New York City in 1922, and attended the College of the City of New York, 1940-41; Columbia University, 1942-43, and later Washington and Jefferson College and the University of Hawaii.

His hobbies include cactus raising (you should see his night-blooming cereus when its magnificent flowers opens), reading and sundry (now spectator) sports. He lives in the Bronx with his wife Charlotte, his 18-year-old daughter Ellen, and 15-year-old son, Howard. Joe says his boy wants to become a coin dealer.

The official grand opening of the new Harmer, Rooke Galleries, with their crystal chandeliers glittering above a breath-taking array of coin and stamp rarities, will take place early this year. Hundreds of visitors are expected to attend, including leading personalities of the numismatic and philatelic fields.

Many persons have already viewed the handsomely arranged display on the fourth floor of the Harmer, Rooke Building, which includes priceless items from the Cardinal Spellman Coin Collection—the fabulous gold 7-ducat of Innocent XI (1679), gold coins of the B.C. period, medieval gold and silver coins of great rarity, Vatican and Papal coins dating back to 1100, etc.

Other coin gems include a unique dollar trial piece struck in 1776 by the American Continental Congress, a rare 1792 cent of billon, a "church penny" token struck in 1790 by the Presbyterian Church of Albany, various California 19th century gold pieces and other historical items.

The stamps to be shown include the unique Black Honduras, purchased for $29,000 by Harmer, Rooke & Co., Inc., and Northern Nigeria's Edward VII £25, which catalogs $20,000.

The Galleries, which are incorporated as a separate firm with Olin Tice in the president's seat, will accept commissions from collectors to build outstanding, exhibitable and marketable collections. We have in mind, of course, those willing to invest important sums. Each client will be helped and advised by an expert consultant, whose duties will include maintaining a want list, quality control and authentication (every item will be guaranteed genuine, without time limit). This personalized service will enable a collector to understand his chosen field quickly, and to avoid the pitfalls which often catch the unguided collector.

We deeply regret to report the death of Don D'Amato, who joined the staff of Harmer, Rooke & Co. 21 years ago, serving as auctioneer and U. S. expert. Don died of cancer Nov. 9 in Memorial Hospital, New York, after about a year's illness.

Don was a prominent career man in American philately who conducted auctions for many noted coin and stamp firms. He was born in New York in 1911 and graduated from Pace Institute and the College of the City of New York. We would like to repeat part of the thumbnail life sketch of Don that we printed in a Newsletter of last May:

He began his auction career in 1932 when he had an unexpected chance to call a sale for J. Murray Bartels, the Nassau St. "professor of experts" for whom he had done occasional philatelic chores. The opportunity came when a truck hit Walter Scott, the elderly auctioneer, breaking his hip.

Don enjoyed calling that Bartels auction, and was soon working along with the Burger Brothers, John and Jake Kleman and Percy Doane. He studied the finer points of philately and conducted auctions for Eugene N. Costales and Irwin Heiman. He also handled collections for Hugh C. Barr and George B. Sloane.

In the 'forties' he managed the U. S. department of the old Scott Stamp & Coin Co., as well as that firm's affiliate, the J. C. Morgenthau Auction Galleries. In 1947 he helped organize and set up the big CIPEX show in New York. He wrote on stamps for Business Week and was the subject of articles in Look, the New York Times and many stamp and coin periodicals. About a year ago, Don estimated that he had probably sold more in stamp and coin value than any other man,

FAMOUS AUCTION CATALOGUES FROM THE HENRY CHAPMAN ESTATE

The Chapman auction catalogues (S. Hudson Chapman & Henry Chapman, 1879–1906; H. C. alone, 1907–32; S. H. C. adone, ca. 1907–30) have been celebrated in American numismatics for over 80 years for the quality of material offered and the informative descriptions. We are fortunate in having the remaining catalogue stock from the Henry Chapman estate, stored since his death in 1935, including many rare and even unique items.

Ever since the 1952 ANA Convention sale publicized them, the "Large" (quarto) Chapman catalogues have been in great demand. There has never been a large offering of "small" (8vo) Chapman catalogues until now, and when these are gone it is unlikely that more will be discovered save in the most important numismatic libraries. Despite the greater fame of the large catalogues (many of which we also offer here), the small are just as informative and in many instances much rarer.

For simplicity of listing, to avoid redundancy, and because the information is of value and has remained unpublisher, we here list the 87 small Chapman catalogues with vital statistics and capsule descriptions. **All lot descriptions of Chapman catalogues hereafter will be made in terms of this list.** Asterisked catalogues are of great importance.

BID BOOKS

The first group of small Chapman catalogues to be offered here consists of "bid books," which are the auctioneer's books used at the crying of each sale. They include hand–entered prices realized, names or code names of buyers, underbidders, and at the end a list of buyers' names identifying the code names used in those auctions employing them. They often include descriptions of addi–tional lots not found in regular printed catalogues, corrections, etc. Each one is necessarily **unique** and of the highest desirability. Bid books for the more important auctions are really museum pieces. Very rarely have any been offered at auction. Estimates of value are accordingly almost impossible to make, but it is reasonable to assume that **any** Chapman bid book should be worth well into three figures. Because of their use at the sales they are always worn.

Unless otherwise noted, each of these through No. 27 is in original paper covers, without plates. Nos. 30–89 are in original board except as noted.
